## Frame marking

**EN166** Guaranteed minimum resistance of the safety eyewear.

**S Protection** Enhanced mechanical, a 22 mm steel ball (weight 44 g) is dropped from a height of 1.3 meters. Polycarbonate, plastic and toughened mineral lenses are able to withstand this.

**F** Protection of particles with high speed and low energy impact. Resists a 6 mm steel ball at 45 m/sec (165 km/h). Max protection for glasses.

**CE** European standard.

Safety Eyewear (frame and lenses) certified by Carl Zeiss Vision AB, Malmö, Sweden.

**When ordering Safety Eyewear**
